

Licensing Error on Microsoft Vista

Symptoms

Program will not start after a new installation.
Vista Licensing Error

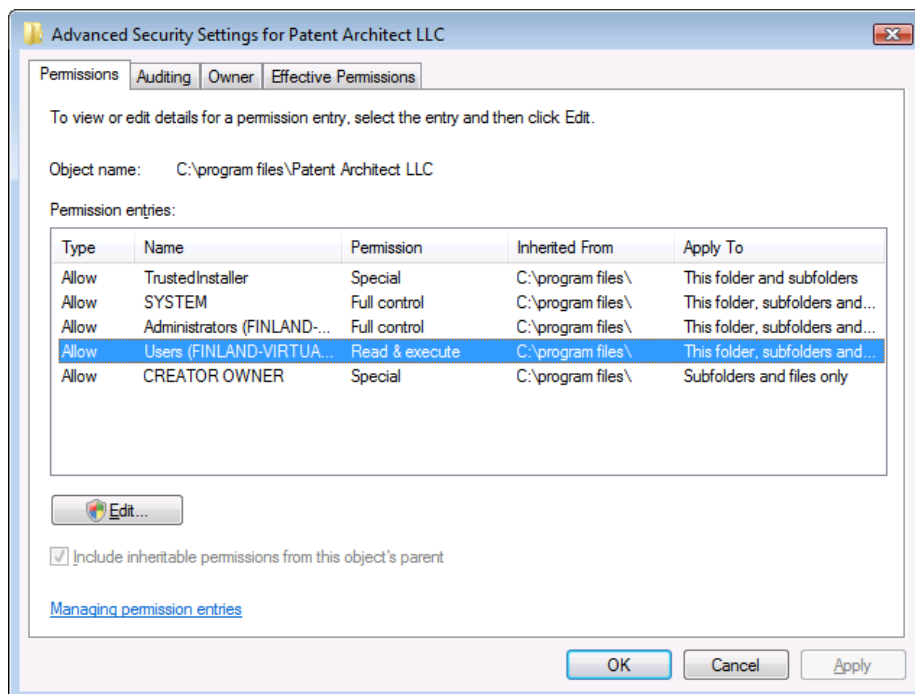

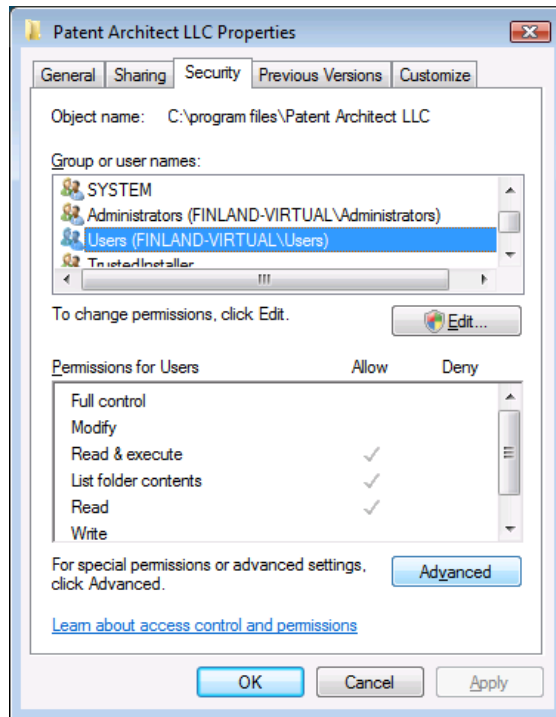

Solution

Give users write permission to the license file by following the steps below.

Step 2

Select the “Security” Tab of the “Patent Architect” Folder.

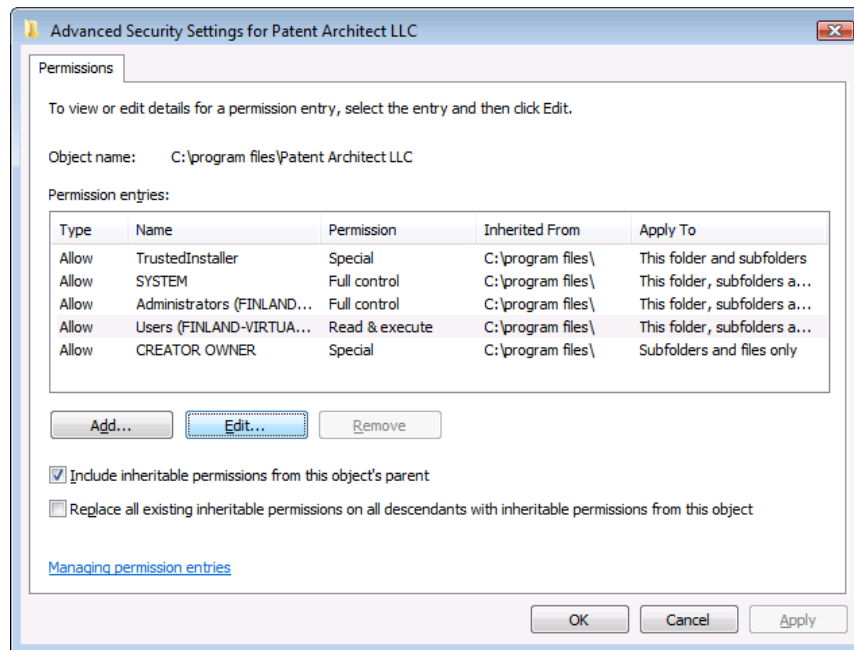

Click on the “Advanced” Button.

Step 3

In the “Advanced Security Settings” select the “Users” group.

Click on the “Edit Button”

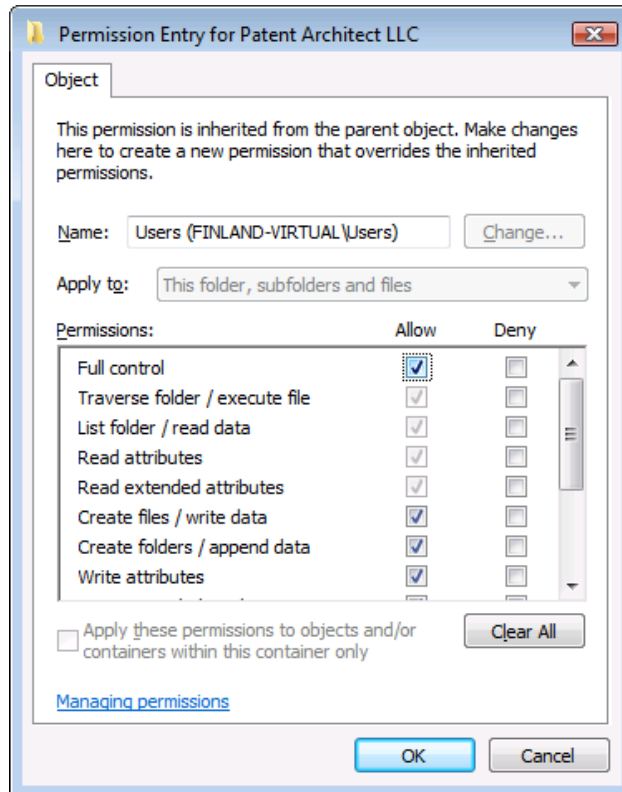

Step 4

In the “Permission Entry” Window,

Click to “Allow” “Full Control”,

Click the “OK” button.

Step 5

Verify that “Users” have “Full Control” in the “Patent Architect” “Advanced Security Settings”

Click the “Apply” button to apply the changes.
